

EDA INC

David Pinti

David serves as a Media Production Intern at EDA, Inc. He works on a variety of video/audio related projects such as running the setup, production, and post-production of EDA's new podcast, Real Life Real Leaders. He also edits platform demo videos and assists with the development of marketing videos for the company.

David is currently enrolled at Valencia College working toward a degree in Film and Video Production/Editing. It is his hope to work for an animation studio in the future. When he's not cramming for finals or interning for EDA, he sometimes produces and edits his own videos, which he uploads to YouTube for all four of my subscribers.
